spacious shared family room area, one parents' bedroom and a second smaller children's bedroom, each bedroom with one matrimonial bed and attached bathroom with shower, entertainment system, fully-equipped kitchenette in second bedroom area, and your own family-sized balcony terrace overlooking the volcano, Aegean Sea & sunset! Ground floor unit, can accommodate up to four family members with one built-in on sofa if needed. Rate includes up two adults and two children. Approximately 55 sqm.

Outdoor terrace: Located on the ground floor therefore, although you have your own terrace and it is not shared, it is not secluded as you can be seen by other guests passing by.

*Designed and recommended for families only rather than two couples, due to privacy and bedding issues.

Privacy Note

While each accommodation does have its own private balcony or terrace, this means the space is yours alone and is not shared with other guests, it does not mean you cannot be seen by anyone, as the building of walls and partitions would block the beautiful caldera scenery you come here to enjoy. That said, the Superior, Honeymoon and Pool Suites are the most private accommodations possible, so we encourage you to book only these categories if you wish maximum privacy in this type of setting.
